 129 Willow Road  
 Swall Meadows, CA 93514

February 2, 2016

## Great Work but...The Drought is Not Over!

The Wheeler Crest Community Services District would like to **thank all of you** for your effort in reducing our water usage this past year. We are under a State mandate to reduce water consumption by 25%. Being a small community service district, individual monitoring is not mandated. Thanks to all in helping to achieve an **overall reduction of 31% (2014 vs. 2015)** for the Pinon/Rimrock water system.

This past year has been challenging for all, especially with the desire to replant and be surrounded by some sense of “normal” vegetation. Although this winters’ snow level is “normal”, we are still way below the amount of water/snow required to pull us out of this drought. So we thank you for remaining vigilant in your water conservation effort. We would like to remind you that come spring, the mandatory restriction of outdoor watering is still limited to two days. You will be notified if this restriction is lifted. For a list of good water conservation practices, please visit our website at: **wheelercrestcsd.org** – under District Information, click on Good Water Practices.

**Electronic Notification** - If you are receiving this letter via a hard copy, we either do not have a working email address or you have not responded positively to accept future electronic correspondence. If you believe you have a working email address, be sure to check your trash or junk email folders in case the request for electronic delivery got filtered. We must receive a positive response in order to convert your method of delivery. You can begin electronic notification at any time by simply sending an email message to:

**wccsd.info@gmail.com**

- or - click on the “contact us” tab on our website at: **wheelercrestcsd.org**

The following is a summary of water usage of the Pinon/Rimrock water system from 2012 through 2015. The percentages are the reduction of use relative to the previous year.

|       | 2012      |  | 2013      |      | 2014      |    | 2015      |     |
|-------|-----------|--|-----------|------|-----------|----|-----------|-----|
| Total | 5,292,880 |  | 6,280,505 | -19% | 6,004,564 | 4% | 4,141,509 | 31% |

Figures are in gallons. A negative number indicates an increase.

 City, State Zip

To keep you apprised of how you’re doing, we have again included your historical usage.

### Your Water Usage for 2012 Through 2015

The table below summarizes usage for parcel 100-32 for the last 4 years (if you have not been a customer for all these years the earlier years data will be zeros).

|           | 2012 | 2013 | 2014 | 2015 |
|-----------|------|------|------|------|
| January   | 0    | 0    | 0    | 0    |
| February  | 0    | 0    | 0    | 0    |
| March     | 0    | 0    | 0    | 0    |
| April     | 0    | 0    | 0    | 0    |
| May       | 0    | 0    | 0    | 0    |
| June      | 0    | 0    | 0    | 0    |
| July      | 0    | 0    | 0    | 0    |
| August    | 0    | 0    | 0    | 0    |
| September | 0    | 0    | 0    | 0    |
| October   | 0    | 0    | 0    | 0    |
| November  | 0    | 0    | 0    | 0    |
| December  | 0    | 0    | 0    | 0    |
| Totals    | 0    | 0    | 0    | 0    |

Water Usage in Gallons

We know that reducing your water use can be difficult, however your water district board members are eager to assist you in any way possible and to answer any questions you may have. You may contact any of our board members for assistance:
